

ps:[®]knock-out

FOR DEFINED KNOCK-OUTS DIRECTLY ON BENDINGS

- production of the knock-outs in two steps:
step 1: production of the knock-out
step 2: flattening
- non-sharp-edged connections (risk for damaging the cable is decreased)
- slug can be removed on both sides
- suitable for all standard sheet thicknesses and sheet materials as well as surface coatings (powder, zinc, etc.)
- knock-outs possible directly on bendings as there is no embossing
