

ps:[®]wheel

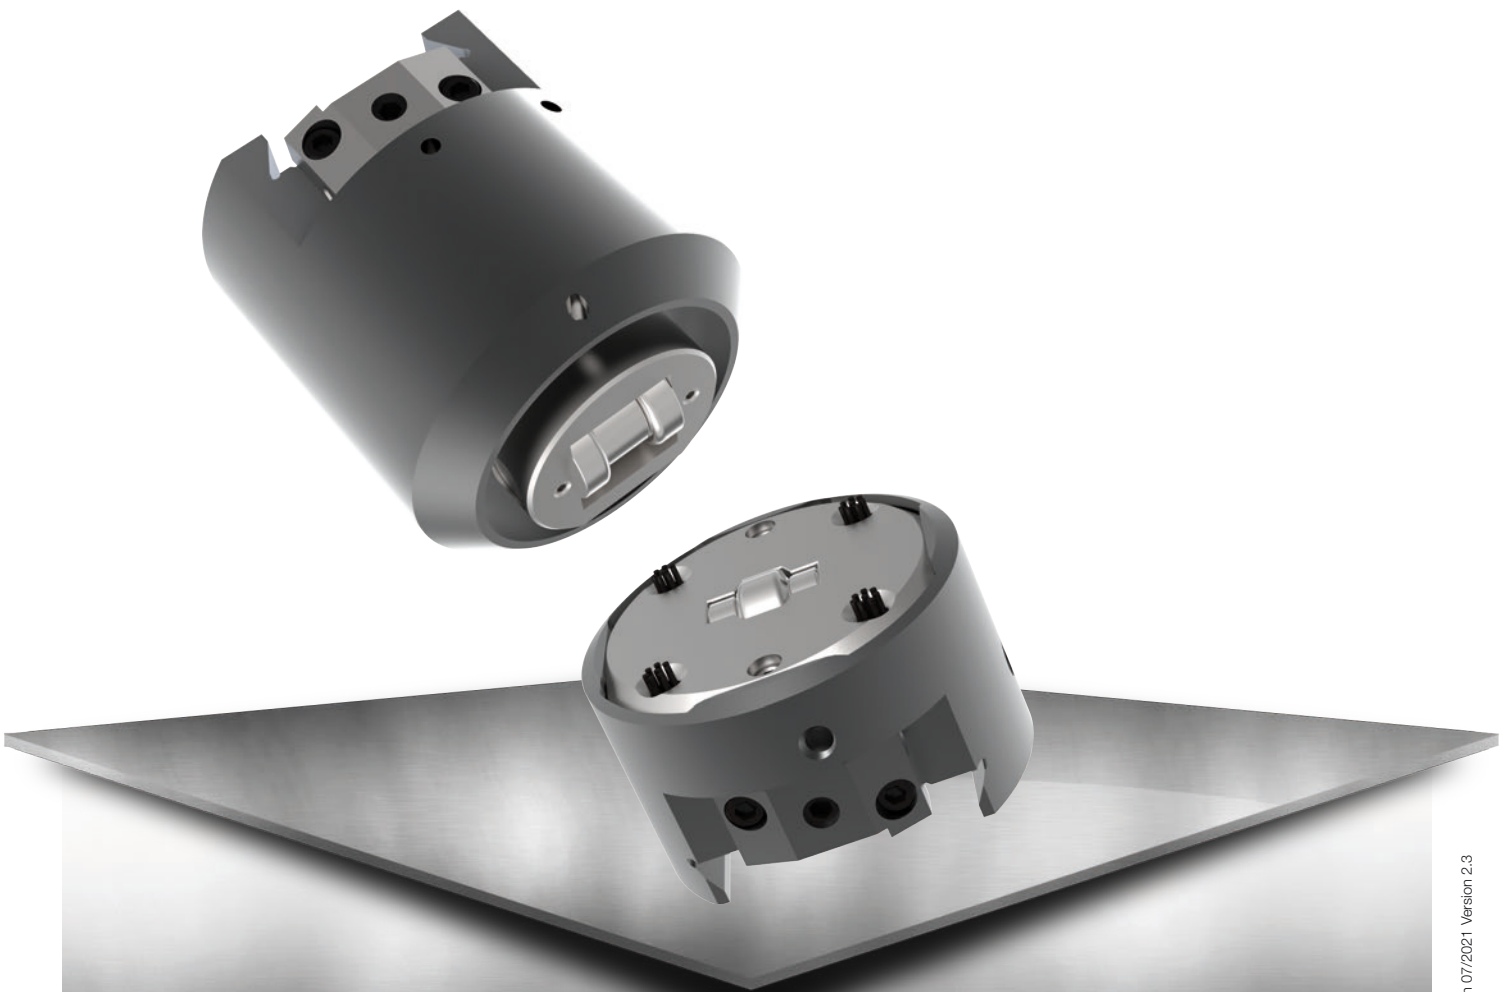

FOR MACHINE TYPES TRUMPF, THICK TURRET & SALVAGNINI

- for different sheet materials and thicknesses
- for different range of applications (e.g. beading-, flange- or offset-tool)
- reduced warpage because of differential effect (segmented wheels)
- no chatter marks
- integrated lubrication
- working with close radius possible
- perfect operating characteristics due to the inserts coated with a special lubrication
- dimensions according to customer requirements, e.g. for beads, possible

TRUMPF

THICK TURRET

SALVAGNINI
