

ps:® easy-cut

FOR MACHINE TYPE TRUMPF, THICK TURRET & SALVAGNINI

- spring-loaded roller in upper part (thus compensate automatically to the thickness of sheet and foil thickness)
- roller with T-MAX coating (best antifriction property)
- pressure of the cutting roller is adjustable (due to initial tension of the spring)
- easy replacement of the cutting roller
- to be programmed as a wheel-tool
- for sheet thickness $s = 0,5 - 3 \text{ mm}$
