

ps:[®]foil-cut

FOR MACHINE TYPE TRUMPF

- for automated, defined & low-scratch cuttings of foil-coated sheets
- needle made of PM material
- precise definition of the overlap of the needle point with 0,015 mm per click for a clear foil cutting
- adjustment of the cutting force by the punching depth
- spring change for a higher cutting force
- spring-loaded needle holder for compensating fluctuations in sheet thickness or sheet unevenness
- brush inserts in the lower part for a trouble free procedure
