

# ps:®marking-all-in-one

## MULTIFUNCTIONAL TOOL FOR MACHINE TYPE THICK TURRET

The multifunctional tool **ps:®marking-all-in-one** combines the most common marking functions for THICK TURRET punching machines in one tool.

As the name already suggests, the PASS - multifunctional tool **ps:®marking-all-in-one** contains all components of the marking functions for sheet metals: center punching, engraving, signing and marking (with permanent marker).

This means enormous cost and time savings due to the extremely short conversion times for changing to a new function and is made possible by the simple handling of the head screw (plug&pull function).

# ps:<sup>®</sup>marking-all-in-one

## MULTIFUNCTIONAL TOOL FOR MACHINE TYPE THICK TURRET

**ps:<sup>®</sup>marking-all-in-one** is suitable for all sheet materials and a sheet thickness from 0,8 mm.

Furthermore, the 4+in1-tool contains two dies for the corresponding functions: A flat die for signing and center punching as well as a ball roller die for engraving and marking.

You don't have to make a decision in advance either for the sheet to be processed:

**ps:<sup>®</sup>marking-all-in-one** is equipped with four different springs as standard in order to apply it to any sheet material.

For the main task of **ps:<sup>®</sup>marking-all-in-one** – the marking of the sheet metal – an additional function was developed into the multifunctional tool: you can integrate the supplied foil tearing needle into the basic adapter. So you are able to tear foils!

The scope of delivery includes:

- 1 basic adapter
- 2 dies
- 1 center punch needle + 1 signing pin made of H-PM<sup>®</sup>
- 1 engraving needle with diamond point
- 1 marking pen
- 1 foil tearing needle
- different springs for different sheet materials

You receive the **ps:<sup>®</sup>marking-all-in-one** in a specially designed and manufactured sample case including a operation manual.

With **ps:<sup>®</sup>marking-all-in-one** you acquire a multifunctional tool with which you can quickly and easily use four or five functions (4x marking functions + 1x tearing foils) for your THICK TURRET machine without costly conversions.

If you have any questions about the new multifunctional tool, please contact your contact person at PASS.
